

ABOUZAÏD WIJDANE

5th-Year Engineering Student

Seeking a 6-month Final-Year Internship from February 2027 in Data Science, Big Data and Artificial Intelligence

+212 6 89 60 28 36 | wijdane.abouzaïd3@gmail.com | Casablanca, Morocco | linkedin.com/in/wijdane-abouzaïd | github.com/wijdaneabou

Education

2024 – 2027	Engineering Degree – Data Science, Big Data and AI	National Higher School of AI and Data Science, Taroudant
2023 – 2024	Professional Bachelor's Degree – Computer and Software Systems Engineering	Higher School of Technology, Essaouira
2021 – 2023	University Diploma of Technology – Business Intelligence and Data Science	Higher School of Technology, Essaouira
2020 – 2021	High School Diploma – Physical Sciences	Had Dra High School, Essaouira

Professional Experience

Artificial Intelligence Intern | **Medios Santé** | Casablanca, Morocco Jul. 2026 – Sep. 2026

- Automatic lung segmentation (left/right) on chest X-rays.
- Image preprocessing and patient leakage correction between train/validation/test sets.
- Comparison of deep learning architectures; best model: U-Net++ / ResNet34 (Dice 0.9893).
- Dice and IoU evaluation, deployed through a Streamlit interface.
- Technologies: Python, PyTorch, OpenCV, NumPy, scikit-learn, Pandas, FastAPI, Streamlit.

AI Development Intern | **YOOL Education** | Casablanca, Morocco Jul. 2025 – Sep. 2025

- Developed a full-stack application that automatically generates multiple-choice quizzes from educational parameters using an LLM.
- Designed prompts and integrated the LLM API to generate structured questions and answers.
- Developed the Spring Boot backend: REST API and MySQL storage.
- Built a React interface for parameter input and generated quiz consultation.
- Technologies: Spring Boot, React, REST API, LLM (DeepSeek), MySQL.

Full-Stack Development Intern | **CINK** | Khouribga, Morocco Apr. 2024 – Jun. 2024

- Developed a MERN-stack community web platform for resources, training, events and networking.
- Developed a Node.js/Express REST API and designed MongoDB data models.
- Built a responsive React interface to browse resources, register for events and interact with community members.
- Technologies: JavaScript, Node.js, Express, React, MongoDB.

Software Development Intern | **BECAGRI Consulting** | Essaouira, Morocco Apr. 2023 – Jun. 2023

- Developed a desktop agricultural fertilization application providing personalized fertilizer recommendations.
- Designed an SQLite database (soils, crops, fertilizers) and a PyQt5 graphical interface for parameter input and recommendation display.
- Technologies: Python, PyQt5, SQLite.

Web Development Intern | **BECAGRI Consulting** | Essaouira, Morocco Aug. 2022

- Developed responsive showcase websites presenting the company's services and activities.
- Developed a PHP backend for secure contact form processing.
- Technologies: HTML, CSS, JavaScript, PHP.

Academic Projects

StockAI – AI Stock Management Agent – The 24 Build-Off 2026 Hackathon

- Autonomous AI agent for real-time stock analysis, consumption forecasting, LLM-based purchase recommendations, supplier selection, human validation, automated supplier ordering via API, and PDF purchase order generation.
- Technologies: Python, LLM (Groq), Flask, Streamlit, Pandas, SQLite, ReportLab.

Water Quality Anomaly Detection

- Anomaly detection (outlier measurements and pollution risks) using Isolation Forest and water potability classification (potable/non-potable) using SVM.
- Technologies: Python, Scikit-learn, XGBoost, SMOTE, Pandas, NumPy, Matplotlib, Gradio.

Virtual Glasses Try-On with AI

- Real-time virtual try-on application with facial detection and glasses recommendation based on face shape (oval, round, square).
- Technologies: Java, JavaFX, OpenCV, MobileNetV2, TensorFlow.

Skills

Programming Languages: Python, Java, JavaScript, SQL

AI / ML: Scikit-learn, PyTorch, TensorFlow, OpenCV, XGBoost

Visualization: Power BI, Matplotlib, Seaborn

MLOps & Cloud: Linux (Ubuntu), Docker, AWS (EC2, S3, Lambda), GitHub Actions

Big Data & Streaming: Hadoop, HDFS, YARN, Hive, Apache Spark, Kafka, Elasticsearch, Logstash, Kibana (ELK)

Databases: MySQL, MongoDB, SQLite, Oracle

Languages

Arabic: Native French: Intermediate English: Professional Working Proficiency
